YALINKAYA

Yalinkaya Group was founded by Mustafa Yalinkaya in 1974 and is currently operated by his sons and grandchildren as a family business, and at the same time its own qualified personnel operate within the framework of its own quality policy. Yalinkaya Ticaret, which reduces its foreign dependency day by day with its constantly renewed machine park, continues to work meticulously to design products in European standards and to place its products in the world markets. In addition, it is the biggest goal of presenting the best quality products to the market at the most affordable prices in the world market by evaluating the technological developments in place and on time by creating new standards in the product range.

The main aim of Yalinkaya Group is; to provide a care experience that increases the motivation and self-confidence of those who use and use its products; while doing this, not to compromise on qualified personnel, state-of-the-art machinery, European standards, world markets and quality policies.
